Project News:

February 2016

Evaluation: The **Independent Evaluators**, Richard and Marija are conducting a mid-term evaluation of the scheme to find out how successful it has been to date and to help the partnership plan for the final 2 years of the Scheme. It will be helpful if you can **complete the on-line questionnaire**.

Let them have **your** views about the **strengths or weaknesses** of the scheme, any **suggestions** you may have, and what you think the long term **benefits** may be for the area's natural and cultural heritage, its people and communities, and you personally.

Morden Hall Park Wetlands: The wonderful wetlands have seen some changes, hedges have been laid by an army of volunteers and scrub cleared. A 200m length of boardwalk with a dipping platform will be constructed from September 2016, the river banks will be restored and new bridges installed. The next National Trust (NT) **speed volunteering** session is on **28th February**. The NT are also looking for **Wednesday Wetlands volunteers** contact [Clare Lanes](mailto:Clare.Lanes@nt.org.uk) for details.

Living Wandle Estates: [London Wildlife Trust](http://www.londonwildlifetrust.org.uk) arranged a workshop with social landlords in the Wandle Valley on the 27th January, at the Tooting and Mitcham Football Club. The staff had a go at heritage and nature activities, to have a taste of what their residents can experience. There's lots of choice on offer, **wildlife walks, quizzes, film showings, arts and crafts (such as block printing), river trips or joint activities such as fishing**. New relationships were formed and the wonders of the Wandle were revealed. Get your community and neighbours involved in these funded activities. Why not contact your own social landlord or [Jane Clarke](mailto:Jane.Clarke@wandletrust.org) directly on 07837 576786 to book some activities.

River Education: Project Kingfisher is well underway! This project aims to **connect schools with the Wandle** and its wildlife. [Creatures in the Classroom](http://www.creaturesintheclassroom.org.uk) is closed for 2016, but your school could still receive a **Tyre pond** for the playground. Contact education@wandletrust.org to find out more!

Wandle Piscators: The youth angling (12-18 yrs) section of the Piscators has recruited 26 young anglers. The Piscators are looking to launch a series of guided walks for juniors in May. There will be **after school lessons** for children & parents in the summer, contact wyp@wandlepiscators.net to learn more.

River Guardians: 10 Living Wandle clean ups have been held and the Wandle Trust are running more throughout 2016. Check out the new **POLLUTION leaflet**, giving tips on how to reduce pollution and report it.

Wandle Watchers: Spring is just around the corner, there is no better time to get out and about **spotting the wildlife and plants** in your local area. We are looking to the public to record their wildlife spots in the Wandle Valley, you don't need to be an expert! Pop your spots on the easy [online form](http://www.livingwandle.org.uk) and help us build up a picture of what species we share the Wandle Valley with. **6 year old Morgan Thomas** was the youngest recorder of 2015, his spots included a Heron and a Robin.
